Re; Request for permission to harvest 2 Bowhead for the community of Quartaq

Dear Mr. Tookalook,

This letter is to request allowance for 2 bowhead whales to harvest from Ungava waters, although a plan is to get only one bowhead this spring or summer, since a hunt does not allow certainty until one is caught and lands at first attempt, in case something not expected happens and hunters lose a bowhead in their attempt, 2nd bowhead would be have a back-up.

Therefore 2 bowheads quota for this year 2014 is requested for the community of Quartaq.

Sincerely

Paulasi Novalinga
President
NHFTA/RNUK
